

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Des	Indian Institute of Technology, Guwahati	6.3(Current)	2022-Present
Senior Secondary	Ryan International School (CBSE)	72.4%	2022
Secondary	Scindia Kanya Vidyalaya (CBSE)	89.2%	2020

EXPERIENCE

- TATA Power - DDL

June 2025 - Aug. 2025

Product Design Intern

Delhi

Redesigned customer bill payment interfaces, achieving **79%** improvement in user satisfaction scores.

Experimented with **AI chat bots** and **prototyped** an AI chatbot interface for all of their customer serving apps and websites.

Designed **internal dashboards** for the IT department to help them maintain all the apps, internal applications and workflows.
- Holygala Fun Pvt. Ltd.

Oct. 2024 - Dec. 2024

UI/UX Design Intern

Raipur

Developed a **user-friendly wholesale website** streamlining product browsing and ordering, boosting online sales by **40%**.

Designed **product packaging** using CorelDRAW for launch of Makka Gulal, an organic gulal made with corn.

PROJECTS

- Staged - B2B Artist Gig Booking Platform

Jan 2025 - April 2025

Prof. Santosh Jagtap | UI/UX Design Project

Case Study

Designed a **music gig booking platform** addressing trust and scheduling challenges for musicians in Guwahati, targeting India's ₹88B live music market where 85% of artists face irregular gigs.

Conducted **15+** interviews with artists, venue managers, and customers to identify systemic power imbalances that affects local musicians, leading to a solution that **redistributes control** through **verified profiles** and **automated booking systems**.

Applied systems thinking approach using **ERAF mapping**, **stakeholder position analysis**, and **80-20 feature prioritization** to create scalable solution architecture with **PESTEL** framework for multi-city expansion.
- College Cupid - B2C Dating App

June 2024 - July 2024

Students' Web Committee IITG | UI/UX Design Project

Case Study

Designed a dating app exclusive to IITG students, incorporating **personality-based** matching algorithm tailored to user preferences.

Surveyed **187** IITG students to gather user feedback and validate design decisions.

Constructed user flow and information architecture, designed wireframes, executed **user testing**, and produced high fidelity prototypes.
- HyGo (Hygiene on the Go) - B2C Website

Jan. 2024 - Feb. 2024

Self-Guided Project | E-Commerce Web Design

Case Study

Designed the **landing page** to showcase the product made using recyclable materials, focusing on **brand identity**.

Studied **user behaviour** and did **market analysis** to understand what would help in **converting** their customers to our product.
- Rare Link - C2C Rare Disease Patients Community App

Sept 2025 - Present

Prof. Debayan Dhar | UI/UX Design Project

Presentation

Designing an app to help bridge the **information gap** between rare disease patients, doctors and caretakers from across the world.

Identified mental health issues affecting **78%** of rare disease patients through primary research with **28** participants.

POSITIONS OF RESPONSIBILITY

- Design Lead, Students' Web Committee (SWC) IIT Guwahati

April 2025 - Present

Led a team of **30+** product and visual designers, managed design for **20+ Portals and Apps** used by about **10k students**.

Orchestrated **unified design system** implementation across campus portals and apps, coordinating with **10 developers** to ensure consistent brand experience and reducing overall development time by at least **30%**.

Mentored design processes for 3 new projects, that contributed to **4,000+ DAU** in OneStop & **5,000+ MAU** in College Cupid

TECHNICAL SKILLS

- Design:

User Experience (UX) Design, User Interface (UI) Design, User Research & Testing, Wireframing & Prototyping
- Analytical:

User Study, Heuristic Evaluation, User Research, Semi-structured Interview, Journey Mapping, Information Architecture
- Software:

Figma, Adobe Creative Suite (XD, Illustrator, Photoshop, Premiere Pro, Audition*, After Effects*), CoralDRAW, Blender*
- Technical Proficiencies:

HTML*, CSS*, JavaScript*, Design for Additive Manufacturing (DFAM), OpenSCAD

*Elementary Proficiency

KEY COURSES TAKEN

- Foundations of User Experience: Google

UX Design Process: Google

User Research Methods
- Interaction Design

Design Evaluation Methods

Systems approach to Design
- Design Research and Technical Writing*

Design Analysis

Design Management*

*Ongoing Courses

ACHIEVEMENTS & EXTRACURRICULARS

- UI/UX Mentor in SWC HackStack 2024, Mentored **300+** students in the Flagship workshop series by SWC

2024
- Hackstack, Got **1st place** amongst 300+ students competing for Product Design

2023
- UCEED, Secured Category rank 12

2022
- IPSC IT Fest 2019, Ranked in the **top 3** amongst 80 participants

2019
